Eunmi Lee (with Klaus Baumann): The Relationship between Psychiatric Staff's own Spirituality and their At- titudes towards Religiosity/Spirituality of Patients

*In the analysis of spirituality (intrinsic religiosity in DUREL) the translated answer „unsure“ was removed to ensure that ordinal scale could remain in our German version. Therefore the highest possible score in the German version is 12,0, not 15,0 as in the original version DUREL.
